# How to use your cards

### 1. Print

Print the pages for your breed (or the any-pet pages) on US Letter paper or light card stock.

### 2. Fill in

Add their name and the date — this is the card they'll be photographed with for years.

### 3. Prop & snap

Prop the card next to your pet — or hold it — and snap the photo. The card's the sign; your pet's the star.

### 4. Share the day

Tag your post #GetPawmarked so fellow breed people can find you.
